EDUCATION

University of Central Florida – B.S. Aerospace Engineering

Expected December 2028

GPA: 3.30/4.00

Lake Braddock Secondary School – High School Diploma

2018-2024

GPA: 3.75/4.00

SKILLS AND COURSEWORK

- **Experience with:** SolidWorks, Fusion 360, OnShape, OpenRocket, Git, Microsoft Office (Excel, Outlook, PowerPoint, Word)
- **Programming skills:** C, Python, MATLAB
- **Relevant Coursework:** Structure and Properties of Aerospace Materials, Mechanical Engineering Problem Solving
- **Fluent in:** English, French

EXPERIENCE

Bi-Propellant Plumbing Engineer

Knights Experimental Rocketry (KXR)

- **P&ID Design:** Contributed to the design of pressure regulators and COPV tanks. Added those to the design.
- **Part Spec'ing:** Found parts including a manifold, fittings, tubing, pressure relief valves, and dome pressure regulators.
- **MATLAB Coding:** Created a script to calculate the choked mass flow rate of Nitrogen gas.
- **SolidWorks:** Pulled CAD files for the parts I found and added them to our CAD model of the plumbing subsystem on the test stand. Includes adding piping connections to each part and routing it accurately.
- **Manufacturing:** Pipe bending
- **Operations:** Wrote out the system procedures and designed the flowchart
